Disc 2 The Power to Trade with Confidence with **MTC**

IV. Multiple Timeframe Confirmation Patterns

Ed Downs, Nirvana Systems' Founder and CEO, has been teaching profitable trading techniques with chart patterns for decades. Through extensive research, Ed has now found the most profitable patterns to use for Multiple Timeframe Confirmation. There are so many “nuggets” of wisdom around these patterns, they deserve their own session to be covered adequately. In this presentation, Ed reviews these patterns and trading rules to form a foundation.

V. Trading with MTC

OmniTrader 2010 releases the power of Multiple Timeframe Confirmation. Building on the previous session, Ed goes over how to use OmniTrader 2010 to find the candidates with the highest probability of success, in a fraction of the time that would normally be spent. MTC is the “missing ingredient” that brings considerable firepower to bear on the market. Ed will show you how to focus this power to dramatically enhance your trading, in both End-of-Day and Real Time.

“Another great presentation by the Nirvana Team! More than a seminar – it was 20 years of wisdom compressed into one seminar!” – Jerry Moore

BONUS: Trading in the **MONEY ZONE**

Get in the Money Zone!

The secrets of the Pros have been revealed with Nirvana's new **Money Zone Module** for OmniTrader 2010. You'll be able to see the underlying road map to the market that has guided professionals for years! Institutional traders use the volume at a given price to signal great entries into an already established trend. Without this knowledge, most retail traders end up buying into the top of a trend, just in time for a reversal. When the stock inevitably pulls back to the volume line,

the pros jump in and buy up all these novices' shares at a significant discount. Now, you will be able to see and play the same levels that have been making professional traders rich for years!

Frank Ochoa, Senior Market Analyst for Nirvana Systems, goes beyond the nuts and bolts of the module to show you how to directly apply the Money Zone to your trading.

“OmniTrader 2010, when turbocharged with the Money Zone is the most powerful and profitable trading tool that I have used during my 12 years of active trading.”
